

PRO MOVEMENT BASKETBALL REVIEW:

Words cannot express the gratitude that I have toward Jarrett Christian. Mr. Christian's commitment to assisting athlete's obtain their collegiate goals have surpassed much more than I expected. My first encounter with Jarrett Christian with Pro Movement Basketball was over a year ago when the company offered to assist my son, Jordan Oliver, with college recruiting. I was unfamiliar with college recruiting and was relying heavily on the assistance of my son's high school coach to help my son obtain placement on a college basketball team. I was very skeptical of the company because there were so many companies offering the same recruiting services. Even though my son obtained numerous accolades for basketball which included, scoring over 1,000 points, 8AA Regional Player of the year, 1st Team All Region Player as well All-State Honorable Mention, he never received assistance from his high school coach in finding placement on a college basketball team.

I was advised that if my son enrolled in a basketball prep school that it would help him get the exposure that he needed. After spending several months at the prep school, he continued to grow and strengthen himself as a competitive player yet he did not receive the recognition or the college offers that we anticipated. This was very stressful for my son Jordan and left me with several nights awakened due to stress as well as the fear that my son would be known as a great high school player that was not fortunate enough to compete on a collegiate level.

Through social media, my son and Jarrett Christian reconnected and within a couple of days college coaches were reaching out to my son. I was in disbelief how quickly the coaches responded to my son's profile through Pro Movements Basketball website. Within weeks my son was offered to be a member of Chattahoochee Technical College Basketball Team. This is the first step in a promising collegiate athletic future. I cannot express in writing how grateful and indebted that I will always be to Jarrett Christian. What I expected high school coaches and basketball prep schools to do, was done so through Pro Movement Basketball in an expeditious manner. Mr. Christian assured me that everything would be ok and he was right.

In conclusion, I have recommended Pro Movement Basketball to other player's parents that are in the same position that I was.

Best regards- Avetta Oliver
