

PRO MOVEMENT BASKETBALL REVIEW:

If you are an under the radar player, and feel as though you can go to the next level, Pro Movement will get you where you want to be. I was a player that was not exposed enough as I should've been, and colleges didn't have a clue who I was due to that fact. Desperately looking for help, Pro Movement came along and helped me with everything! And when I say everything, that's what I actually mean!

My whole recruiting process made a whole turn around, I went from visiting my High School to workout, to going to many different colleges everyday throughout the week! Pro Movement was there with me every step of the way, talking with me, and helping me make decisions based off of what they experienced. Without Pro Movement I don't know where I would be going to college. But with Pro Movement I was able to receive a full scholarship to the University of Mobile which is \$30,000 for 4 years! You cannot go wrong with Pro Movement; they will help you change your life, just like they changed mine!
