

PRO MOVEMENT BASKETBALL REVIEW:

Working with PRO Movement Basketball was incredible. It was good to have someone to guide you through the recruitment process. As a first time parent, I needed a professional to help me to understand the details of contract negotiation, coaches' expectations, and finding that perfect place for my daughter. Before coming to PRO Movement, I was clueless on how to get my daughter recruited. We had all of the essentials such as highlight reels and stats but no connections.

I would send out hundreds of emails to coaches, just adding to the millions of emails they receive. PRO Movement was the key that opened up the doors for my daughter. They were able to provide the missing puzzle piece to the full colored picture! We are grateful to PRO Movement and all they have done. We are proud to say that we're heading to University of West Georgia in the fall of 2015!
