

PRO MOVEMENT BASKETBALL REVIEW:

Basketball season was ending; I did not have a clue what to do in order to help my son get recruited to play basketball in college. My son has played basketball since the age of 5 and has been certified as a D-1 basketball player, but he was under recruited. I understood, all I had to do was take him to all those games, practice and training session and he was sure to receive a scholarship by the time he was graduating from high school. Well, the truth is, many school verbally stated, they were interested in my son, but no commitment over the years.

The information provided above is just to let you know my son has talent, but still under-recruited, until I was introduced to PRO MOVEMENT. I was very impressed with PRO-MOVEMENT from the very first telephone call with the representative, Jarret Christian. He was very professional and I felt as if, he was very concerned with my son getting a scholarship to play basketball in college. Mr. Christian spoke about his interest in players that are unrecruited. He stated that many players with talent are unrecruited. I felt from our conversation that he had a great passion for this area of expertise. He has a great interest in helping to place players in college to play college basketball. Mr. Christian was always available any time of the day. If I had a question about anything, he would reply to my email almost immediately. I am very pleased with the quality of guidance provided by PRO MOVEMENT. I highly recommend PRO MOVEMENT to anyone that had a player, and want them to get a scholarship to play basketball in college.

PRO MOVEMENT provided a very professional stats sheet. It had a picture of my son with his stats and accomplishments all on one page. It was a very nice presentation of my son. I knew from that moment, that I had connected with the right source to help my son. He asked, how far from home was my son willing to travel, and then he begin the search for colleges. I received a list of colleges in which Mr. Christian anticipated presenting my son. He sent my son's highlight tape as well as contacting the coaches, by way of telephone.

The telephone started to ring, coach after coach called stating, they were very interested in my son. We would schedule a date to drive out to the college to meet the coaches and to view the campus. PRO MOVEMENT kept us on the road. Mr. Christian was in constant contact with my son. Mr. Christian made sure Brandon understood the process. PRO MOVEMENT was there every step of the way.

Thanks, to PRO MOVEMENT my son, BRANDON BARNES, received a FULL scholarship to attend the University of Mobile to play college basketball!
