

PRO MOVEMENT BASKETBALL REVIEW:

PRO Movement is an awesome program that allows you to meet and interact with many different coaches, where you get to know the recruiting process with assistance at all time. I like how Christian is so involved in the process so you are to make to right decision, ask all the right questions and where you maximize your opportunities. I honestly recommend this program to all unsigned under the radar seniors; this is where you get the looks and knowledge about recruiting. This program has been more helpful than the high school and AAU coaches. This gives every child an opportunity to succeed in life.
